

JOSHUA OKATA OFOSU

Product Designer • UI/UX Engineer

Accra, Ghana | 054-606-2058 / 026-143-0256 | ofosujoshua73@yahoo.com | joeokat.vercel.app

PROFESSIONAL SUMMARY

Product Designer with over 4 years of experience translating user needs into intuitive, accessible, and visually engaging digital experiences. Skilled in the full design lifecycle, from user research and wireframing to high-fidelity prototyping and design-to-development handoff, using tools including Figma, HTML, and CSS. Proven track record coordinating with cross-functional teams of developers and stakeholders to ship high-traffic products on time, with a strong emphasis on usability, accessibility, and consistent design systems.

CORE COMPETENCIES

UI/UX Design: Wireframing, Prototyping, User Flows, High-Fidelity Mockups, Accessibility-First Design
Research & Testing: User Research, Usability Testing, Stakeholder Interviews, Feedback Synthesis

Design Systems & Handoff: Design-to-Development Handoff, Brand and Design System Consistency, Figma

Collaboration: Cross-Functional Team Coordination, Stakeholder Communication, Design Iteration Management

PROFESSIONAL EXPERIENCE

Product Designer & Frontend Developer | *Freelance* Oct 2019 – Present

- Design and deploy responsive, accessible user interfaces for startups and SMEs, translating client requirements into intuitive digital experiences using HTML, CSS, and Alpine.js.
- Designed and prototyped a user-centered online ordering system, mapping user flows from checkout through fulfilment to reduce friction in the manual social-media ordering process.
- Conduct informal user research and gather client and end-user feedback to continuously refine interface usability and visual design.

UI Designer & Product Coordinator | *Fleet Labs Ghana (Remote)* Oct 2020 – May 2023

- Translated product requirements into user-focused wireframes and prototypes using Figma, incorporating UX and accessibility considerations.
- Created user flows, wireframes, prototypes, and high-fidelity mockups for the Miss Emerald Ghana Pageant Voting App, effectively communicating design concepts to stakeholders.
- Designed UI elements such as input controls, navigational components, and informational components to ensure a cohesive and intuitive interface.
- Conducted user research and usability testing to gather feedback and insights from potential voters and stakeholders, informing key design decisions.
- Incorporated accessibility features to ensure the platform was usable by individuals with disabilities or impairments.
- Collaborated with developers and other stakeholders to ensure designs were implemented effectively and efficiently while adhering to technical constraints and best practices.
- Coordinated cross-functional teams across design and engineering, managing tasks, timelines, and deliverables from planning through launch of a high-traffic voting platform serving hundreds of users.

UX Design Mentor | *Fleet Labs Ghana – Remote* Feb 2020 – Feb 2024

- Mentored 8+ UX/UI interns through the end-to-end design process, from user research and wireframing to prototyping and design handoff.
- Recognized as "Most Contributing Member" (2022 & 2023) at UX Ghana.

KEY PROJECTS

- **Miss Emerald Ghana (Pageant Voting App):** Led user research, wireframing, and prototyping for a high-performance voting platform serving hundreds of concurrent users, ensuring accessibility and usability throughout.
- **Online Ordering System:** Designed a customizable, user-centered ordering platform that streamlined the customer journey from checkout through fulfilment.
- **AIT Academy Platform:** Contributed to the design and user experience of an online learning and remote-work platform helping learners across Ghana and West Africa build practical digital skills.

EDUCATION & CERTIFICATIONS

BSc. Information Technology - Kwame Nkrumah University of Science and Technology (KNUST), May 2022, CGPA 3.024

Professional Diploma in IT - Ghana Institute of Management and Public Administration (GIMPA), Sept 2014, GPA 3.871
